

# Dana Hughes

[dhughes4@fsu.edu](mailto:dhughes4@fsu.edu) | 850-509-6908 | Tallahassee, FL

## Education

- Florida State University** | Tallahassee, FL *May 2022*  
*Bachelor of Science in Computational Biology*
- Tallahassee State College** | Tallahassee, FL *May 2020*
- Florida State University** | Tallahassee, FL *May 2016*

## Research Experience

- Florida State University** | Tallahassee, FL *July 2021 – May 2022*  
*Undergraduate Practicum: Data Analysis of Surfactant-Based Molecular Recognition*  
*Lenhart Research Group | Dr. Steven Lenhart*
- Analyzed lipid nanotechnology experiment datasets to extract meaningful insights.
  - Investigated lipid-based nano- and micro-structures to contribute to the advancement of biomedical and technological innovations.
- Florida State University** | Tallahassee, FL *August 2020 – April 2022*  
*Research Assistant*  
*College of Social Work | Dr. Michael Killian*
- Organized and maintained machine learning and deep learning modeling results for pediatric organ transplant patients.
  - Assisted in interpreting statistical data to help identify trends related to transplant rejection and patient health risks.
  - Collaborated with interdisciplinary research teams to analyze and interpret model results across multiple fields.
- Florida State University** | Tallahassee, FL *January 2021 – April 2022*  
*Program Assistant*  
*College of Social Work | Ellen Piekalkiewicz*
- Assisted in grant writing and funding proposals for community-based research projects.
  - Analyzed disaster impact data from primary sources in Florida's Big Bend to assess support for rural communities.
  - Collected and organized data on Florida's K-12 child and youth programs.

## Publications

Killian, M. O., Tian, S., Xing, A., **Hughes, D.**, Gupta, D., Wang, X., & He, Z. (2023). Prediction of Outcomes After Heart Transplantation in Pediatric Patients Using National Registry Data: Evaluation of Machine Learning Approaches. *JMIR cardio*, 7, e45352. <https://doi.org/10.2196/45352>

## **Recognitions**

### **Dean's List**

*Tallahassee State College*

*May 2020*

Among the 1,300 students named to the Spring 2020 Dean's List at Tallahassee State College

[TSC Dean's List 2020](#)

### **Student Spotlight Article**

*FSU UROP Program Website*

*April 2021*

Featured in a student spotlight article highlighting background and research on predicting outcomes of pediatric organ transplant patients.

[UROP Student Spotlight - Dana \(Flumer\) Hughes](#)

## **Conferences**

**Hughes, D.** (2021, April). *Combinatorial bio-inspired mixture as a novel medium for liquid/liquid extraction of small ions*. NanoFlorida International Conference, Gainesville, FL.

**Hughes, D.** (2021, April). *Psychosocial characteristics associated with post-transplant hospitalization in pediatric heart transplant patients*. Florida Undergraduate Research Conference, Tallahassee, FL.

**Hughes, D.** (2021, February). *Psychosocial characteristics associated with post-transplant hospitalization in pediatric heart transplant patients*. NanoFlorida International Conference, Tallahassee, FL.

## **Professional Experience**

**Florida State University | Tallahassee, FL**

*February 2024 – Present*

*Business Analyst*

- Design, develop, and maintain financial aid databases and reports for state, federal, and institutional surveys using software such as PS Query and Snowflake.
- Identify efficiencies, participate in testing, advise regulatory changes, and ensure compliance with state, federal, and institutional regulations.
- Collaborate across financial aid teams to identify efficiencies, test changes, and address regulatory needs while adapting to evolving compliance standards.

**Department of Environmental Protection | Tallahassee, FL**

*March 2023 – September 2023*

*Chemist*

- Analyzed, interpreted, and reported data from TKN digestion and TDS/TSS analysis to evaluate water quality parameters and support environmental research initiatives.
- Ensured accuracy and reliability through strict adherence to QA/QC standards and precise data analysis.
